

Leading the Movement

Sport England's Leading the Movement programme, funded by The National Lottery, is a long-term commitment to upskill, empower and connect leaders to support them in tackling the inequalities present in sport and physical activity.

Designed by leaders, for leaders, the programme is also continually shaped by our **Co-Design Group** and with input from **partners and stakeholders**.

Being a leader isn't determined by job titles or seniority, it's about wanting to make a difference, creating change and opening up opportunities for more people to live active lives. If you work to tackle these inequalities, or you support the people that do, then you're part of 'Leading the Movement'.

Free, accessible guidance and further resources focussing on:

- Tackling inequalities
- Wellbeing and professional development
- Partnerships and networking
- Leadership fundamentals
- Place-based working
- Whole systems approach
- Managing change
- Innovation and digital
- Programme testimonials

Website

Free events and webinars including open-to-all inclusion webinars, themed events for our leadership community and opportunities hosted by partner organisations.

Events and webinars

Sector leaders share their advice, challenges and moments of genius from their work to tackle inequalities.

Your stories

Sign up through the website for regular Leading the Movement updates and news from the sector and our partners.

Newsletter

Bespoke offers with additional eligibility criteria.
See [website](#) for more details.

Leadership community

A growing community of leaders who come together for quarterly events, insight sharing and networking opportunities. **Join the community** today to explore topical issues and challenges faced by leaders, like you, working to tackle inequalities.

A two-and-a-half-day residential course supporting leaders with system leadership skills, connection and collaboration. Hosted across the country, leaders engage in practical guided activities and learn from those with lived and specialist experiences.

National leadership course

Place-based leadership course

A two-day course delivered in community settings, by expert facilitators. Bringing together local leaders in **Place Expansion areas** to develop relationships and build momentum towards whole systems change.

Reflecting and exploring the leadership challenges faced by leaders from **system partner organisations** when working to tackle inequalities. Delivered for individuals or teams.

Mentoring

Individual or group mentoring for **system partners**, supported by a diverse and amazing **network of volunteer mentors**, using their lived and professional experiences to advance leaders' work tackling inequalities.
